(CEADESE)

**AFRICA CENTER OF EXCELLENCE IN AGRICULTURAL DEVELOPMENT &  
SUSTAINABLE ENVIRONMENT (CEADESE)  
FEDERAL UNIVERSITY OF AGRICULTURE, ABEOKUTA  
IN COLLABORATION WITH  
EXCEL EDUCATION GLOBAL CONSULT LIMITED, HOUSTON TEXAS, USA  
PRESENTS  
LEARNING TECHNOLOGIES WORKSHOP  
ON THE 21ST CENTURY  
INNOVATIVE INSTRUCTIONAL METHODS,  
TOOLS AND TECHNIQUES**

### **About the Centre**

Centre of Excellence in Agricultural Development and Sustainable Environment (CEADESE) is a World Bank sponsored Africa Centre of Excellence established in 2013 at the Federal University of Agriculture, Abeokuta. The objective of CEADESE is to strengthen human and material capacity for Agricultural development and sustainability of the Environment. The Centre is focused on postgraduate education through teaching, learning and research excellence. The Centre places high emphasis on industrial linkages and collaborative engagement with the end users.

### **About the Workshop**

In recent years, educational research on how the human brain learns has yielded new and more effective instructional pedagogy and approaches. Advancement in technology has also led to the development of modern tools to ease teaching, learning and assessment of students. In Nigeria and some other sub-Saharan African countries, however, the use of such instructional methods and tools is not widespread due to lack of awareness and/or skills to use such tools. This training is designed to empower Staff of Higher Educational Institutions (HEIs) to transit from the traditional format of delivering instruction and assessment to innovative and technology-driven methods. All learning activities will be hands-on and interactive.

### **Workshop Objectives**

The objective of this workshop is to develop the much needed skills in participants in order to use innovative instructional methods and modern technology tools to enhance the learning experience for all learners and encourage the transition from the traditional face-to-face lecture style of delivering content and assessment.

### **Expected Learning Outcomes**

Participants will acquire skills on using student-centered instructional methods and modern tools to improve their content delivery and assessment practices. In addition, participants will be equipped with the technical know-how of cutting-edge innovations. Some of the topics that will be considered are: Trends in Education in the 21st Century, Multiple Intelligences & Implication for Practice, Innovative methods of Teaching, Web-based Tools for Teaching, Assessing and Collaborating, Developing E-Content for the Smart Classroom I (Multimedia Presentations), Developing E-Content for the Smart Classroom II (MP3 Files).

### **Date & Venue**

Date: Monday, 13th – Friday, 17th August, 2018

Venue: International Scholar & Resource Center, Federal University of Agriculture, Abeokuta

Time: 9.00AM - 4.30PM Daily

### **Workshop Fee**

₦ 70,000 for Nigerian Nationals

### **Target Audience**

The workshop is targeted at Senior Higher Education Administrators, Vice Chancellors, Rectors, Provosts, Deans of Faculties, Heads of Academic and Research Departments, Academics and Researchers in Higher Education Institutions (HEIs), Directors of Academic Planning, ICT, Research Offices, Academic Institutes from HEIs, Stakeholders from Ministries, Departments and Agencies, Non-Governmental Organizations, Heads of Schools, Technologists and Librarians etc.
